

Replacement ticket: a customer or dealer returns an item

Step by step, with screenshots

This guide follows one real example, step by step, with screenshots: a **dealer** returns a damaged item that was sold to them on credit. The same steps apply to any customer.

Person	Role in the example
Sales Associate – West Ave	Made the original sale (DR)
Sales Associate – CSR	Received the returned item and opened the ticket
Sales Associate – Dasmariñas	Gave the replacement
Head Auditor	Approves the replacement
Accounting Head	Sees the accounting entries

Every ticket is tied to the **DR / SI** of the original sale, so you always know which sale, customer and branch it came from. Red numbered boxes in the screenshots match the numbered notes under each picture.

1 Find the sale (DR / SI) the item came from

Sales Associate of any branch (here: West Ave, who made the sale)

A customer or a dealer brings back an item. First open the sale it was sold on: **Sales List** → press the DR / SI number.

On the DR page there is a link that starts the replacement ticket. You can also start from the menu **Replacement Tickets** (next step).

This example is a **dealer** sale on credit (AR / PDC). A cash sale to a walk-in customer works the same way.

Sales Associate – CSR Sales Associate CSR

What this page is for: Items a customer returned to us (tied to the DR / SI) and items we return to suppliers. Any branch except a franchise ticks a customer ticket when the replacement is given; a supplier ticket closes only when the replacement items arrive.

Replacement Tickets

Show

All tickets ☒ only open

1 Customer returned an item

Return items to a supplier

2 How it works

- Customer returned an item:** find the DR / SI it was sold on, choose the item, quantity and reason. A ticket opens; the auditors, Accounting, the Owner, the sales associate of that DR and every branch are told.
- Any branch except a franchise** ticks the ticket when it gives the customer the replacement (the same product or another one). The **price difference** against the DR is worked out by itself. The **Head Auditor approves**; then the ticket closes.
- Return to a supplier:** the ticket is tagged to the supplier; the Head Auditor approves the return. It stays open until replacement items arrive on a supplier delivery linked to the ticket; only that closes it.

No tickets.

1 Customer returned an item: starts a ticket for a customer or dealer.

2 A short reminder of how tickets work.

3 Find the DR / SI

The branch that received the item (CSR)

Type the **DR number**, the **customer or dealer name** or the **mobile number**. The sales found are listed with the date, the branch that sold them and who made them.

Press the **item line** that came back. It shows how many were sold and how many can still be returned.

The system will not accept more than was sold, and an item already on another ticket cannot be returned twice. A sale older than 30 days is marked in red.

Customer returned an item

Return items to a supplier

How it works

Customer returned an item:

find the DR / SI it was sold on, choose the item, quantity and reason. A ticket opens; the auditors, Accounting, the Owner, the sales associate of that DR and every branch are told.

Any branch except a franchise ticks the ticket when it gives the customer the replacement (the same product or another one). The price difference against the DR is worked out by itself. The Head Auditor approves; then the ticket closes.

Return to a supplier:

the ticket is tagged to the supplier; the Head Auditor approves the return. It stays open until replacement items arrive on a supplier delivery linked to the ticket; only that closes it.

TICKET	KIND	ITEM	QTY	DR / SUPPLIER	BRANCH	STATUS	DAYS
1 CS-RT-000001	Customer	Demo Whey 2lbs Choco 0C69	1	DR DR-20266 Aisha Store	CSR	waiting for a replacement	0

1 An open ticket. Press the row to open it.

8 Press "We gave the replacement" and choose the product

The branch that gives the replacement

Press **We gave the replacement**. By default it is the **same product** and the same quantity. To give a **different product**, search it and pick it from the list (only products this branch has in stock are shown).

1 The voucher "Replacement price difference CS-RT-...".

Summary: who does what

Step	Who	What
1	Branch that receives the item	Finds the DR / SI, opens the ticket, attaches a photo
2	Any other branch (not a franchise)	Gives the replacement (same or different product) and saves
3	System	Works out the price difference against the DR
4	Head Auditor (or Owner)	Approves; if refused the stock goes back and the ticket reopens
5	Branch that gave the replacement	Confirms the customer paid / was refunded
6	Accounting	Sees the entries: replacement cost, price difference

Accounting entries

When	Debit	Credit
Head Auditor approves	Replacement Cost - Customer Returns	Inventory of the branch (at cost)
Difference settled: customer pays	Cash on Hand (or the customer's / dealer's AR on a credit sale)	Sales of the DR's channel
Difference settled: refund or credit	Sales - Returns	Cash on Hand (or the customer's / dealer's AR)

Good to know

- Reminders are sent every few days while nobody has given the replacement (the auditors, Accounting, the Owner and whoever opened the ticket).
- A ticket nobody has ticked yet can be cancelled by whoever opened it, the Head Auditor or the Owner (with a reason).
- A return older than 30 days is flagged to the auditors.
- Notifications go to the auditors, Accounting, the Owner and the sales associate of the DR at every step.
